

Costs for using BAK Basecamp spaces and services

Last revised: January 2026

The Basecamp for Tactical Imaginaries unbuilds and rebuilds cultural infrastructure to collectively confront the urgencies of today. In this collective endeavour, the Basecamp spaces are shared with countless artists, activists, companion collectives, organisations, and organisers.

To ensure this space remains one where community and communality are at its heart and this space can continue onwards, we prepared this indicative overview of costs to organise at the Basecamp.

At the same time, we understand in these volatile times that spaces to organise in and financial and other resources are spread thin. We want to emphasise that for the community and grassroots, Basecamp is a home and hub. Do you want to organise at the Basecamp and are limited in means? Let us know!
